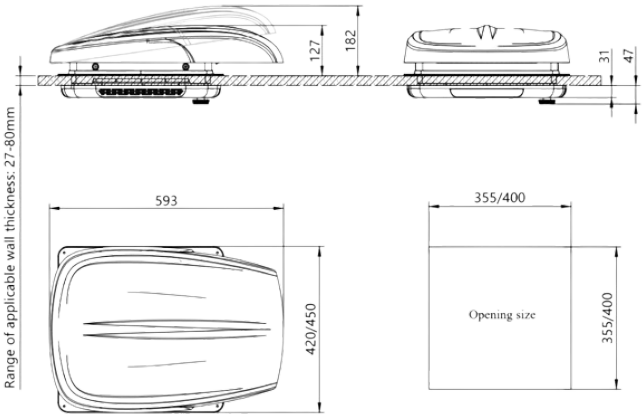
Deluxe comes as standard.

Experience seamless control over your environment with the AirPlus fan. Whether you prefer the included remote for motorised lid operation or the intuitive integrated touch panel, you can easily adjust airflow settings to achieve your desired level of comfort.

The AirPlus boasts an impressive range of features, including 10 selectable airflow levels for precise customisation. It also offers versatile two-way operation (intake and exhaust) to promote balanced air circulation within your space. For ultimate convenience, intelligent auto mode automatically regulates airflow based on internal temperature, ensuring a consistently refreshed environment.



Measured to Fit

Discover precision and performance like never before with our AirPlus Fans. Designed to seamlessly integrate with any vehicle they are available in 355mm and 400mm aperature sizes. Designed to deliver optimal airflow efficiency, each fan is crafted to fit perfectly, ensuring a sleek and tailored appearance while maximising cooling power.

1

Touchpad Control
