Description Reviews (0)

▶【Extended Length】RVMATE RV extension cord extends 30 ft, providing the extra length to charge your RV. And when you run the generator, it can protect you from noise and hazardous exhaust through a safe distance.

▶【High Conductivity】Features a standard 30A (NEMA TT-30P) male plug and 30A (NEMA L5-30R) female connector. Our RV extension cord is ETL certificated, rating 10AWG/3C 30A 125V 3750W. The conductor is 100% copper wires for superior conductivity.

▶【Flexible, Safe & Durable】RVMATE 30A RV power cord will remain flexible and easy to be winded up even in cold weather. Made of flame retardant, heat-resistant (max work temperature: 60℃) heavy-duty PVC sheath, it Protects the safety of you and your family.

▶【LED power indicator】RVMATE 30A RV power cord has the green indicator light. The visual indicator is convenient to know whether the power cord is connected to the power supply.

▶【New design】90-degree UV-resistant plug has strain-relief design to reduce stress on the power cord and its connection. Our plug's size is universal to perform in many campgrounds, easily closing the lid of the RV outlet box for weather-proof.

▶【What you get】 Every extension cord comes with a plastic strap, a storage bag and a cleaning towel, helping you organize and clean power cord.
