About this item

- STANDARD USB PORT - This DC 12 volt light fixture comes with standard 5V/2A USB port, suitable for charging your cellphone or other devices (USB cable not included).
- BRIGHT ENOUGH - 3W light source, equivalent to a 10W bulb. Max 200 lumen output only drains 0.2A (base on 12V), energy efficient.
- DIMMABLE - 3000k warm light gives a cozy feeling, it stimulates your eyes to relax more easily compared to cool white light. LONG press to adjust brightness, LIGHTLY touch to turn on/off. Prefect for reading.
- ROTATES 360 DEGREES - Comes with Stainless Steel finished and flexible arm. Directional light don't disturb sleeping partner.
- SAFE LOW VOLTAGE - This light fixture is designed for 12V DC applications, like RVs, Camper or Trailer. Take particular care not to connect AC or 110V supplies and don't mistake of connection (red wire is positive).

How customer reviews and ratings work

Customers say

Customers praise the RV reading light for its brightness and dimming capabilities, with one customer specifically mentioning its nice warm light. Customers appreciate that it's easy to install, looks good, and comes with a built-in USB charging port. Opinions are split about how well the light works - while some customers say it works well, others report that it stops working after a short time.

TJ Morris

★★★★★ **Pretty good**

Reviewed in the United States on September 20, 2024

Verified Purchase

I'll be honest, the instructions could use some work, but the lights are awesome. I have a converted travel trailer, and the lofted bed had short stemmed reading lights that always managed to hit me in the head when I sat against the wall or bed-side cabinet, so I bought these hoping I could have more head space and a more adjustable light. Money well spent. They work perfectly, weren't too hard to put in (Despite the poor instruction language), and dont make any noise when turned on! The usb ports work, but the charge depends on if you're on shore power or not. Anyway, they're just what I hoped for and I'm pretty happy with them. In the future, I'll get the ones with the dimmer switch or a set with different brightness modes, but these work great for this rv.

BB

★★★★★ **Great 12v reading light**

Reviewed in the United States on March 3, 2024

Verified Purchase

I purchased this light for a van build to go above my bed. It worked out really well. It is well made all metal construction and looks really nice. One nice thing that may have been mentioned in the description somewhere is that it has a usb in the bottom of it so you can also charge your phone from it. The housing is a smart design that allows you to easily do a clean flush mount. I highly recommend this light for camper vans, rv's, etc.

S. Grant

★★★★☆ **Very Bright Easy To Adjust Position With Charging Access**

Reviewed in the United States on October 7, 2022

Verified Purchase

I bought four of these WisHomee DC 12V Reading Light with USB Charging Port to use in my camper. On one the USB charge port did not work. Very good that the power source can be 12-24 Volts DC according to a sticker at the lamp base. My camper has a Lithium Iron Phosphate Battery that needs 14.6 Volts to fully charge so at times my camper system voltage is well above 12 volts. This higher voltage can damage some "12-Volt" electronics.

JudyK

★★★★★ **Love these lights for our van!**

Reviewed in the United States on December 24, 2021

Verified Purchase

Purchased two of these for reading lights by the bed in our van. They are touch on , touch off and are dimmable! The base also has a USB port, so we can use for phone charging & didn't have to install separate USB ports.
The dimmer gets to a very nice low light, which is a great thing in a small space. Couldn't be happier with these and I would definitely recommend!

Robert Cox

★★★★★ **Easy to install, works nicely**

Reviewed in the United States on January 22, 2025

Color: Dimmable/ Black | Verified Purchase

I installed this in our van, on the wall next to the bed. It's bright enough for reading at night, which is exactly what it is for. It is not bright enough to fill the whole area - that's what the overhead LED pucks do. It takes a couple of tries to get used to the switch - once past that microscopic hurdle, it's perfect for what we wanted it for.

James H.

★★★★★ **Great reading light!**

Reviewed in the United States on July 2, 2024

Verified Purchase

We use this light as a replacement for a touch style that was troublesome. It has worked perfectly and we do not miss the dimming feature of the touch light at all. A traditional on/off switch is hard to beat. I do recommend this light.

★☆☆☆☆ **1st box of junk was replaced with a second box of even junkier junk**
Reviewed in the United States on July 16, 2024
Verified Purchase

My original map lights in my camper van were rattling badly, I would tighten the hinges and after a few miles they would begin rattling again. So I decided I wanted something adjustable, just not hinged, which meant a goose-neck light would be in order. my camper is a late 90 dodge and came with gold / brass plated fixtures, not my style, but it is what it is and not to be found today, So I found these black goose-neck 12v led reading lights and thought these would work. It came with built in USB charging a feature I had no need but I thought they used the charger as a led driver so I thought I would just not use it, no big deal.
Well I guess it was because the 1st one flickered, the second one did nothing. I contacted amazon and I was sent a second set. Upon opening it, I noticed the lights looked similar but apparently had a dimming feature.. Looked similar, just another feature I did not need. 1st light went in and worked.... But the second light when I hooked up to test it burst into smoke and the caught fire, I mean literally fire. That's when I took out the working one and started a return.
Interestingly when I started the return, Amazon didn't give me the option to take it to wholefoods it wanted me to take it across town. But after fiddling around I found an option to return to a closer FedEx
